

Technology

February Newsletter

Dear Parents,

Time sure has been flying by, it's hard to believe it's already February! All the children learned so much in January. The Zebra, Cardinal, Dragonfly, and Hummingbird classes learned about different types of technology devices and how technology changes over time. The children enjoyed exploring different forms of technology with a hands on approach. The Lion and Tiger classes explored counting to ten with animals through their exploration of the iPads and creating music on the Fisher-Price App with use of colors and shapes.

In February, the Lion and Tiger class will be using different activities that enhances comprehension skills and encourages first words. The Zebra, Cardinal, Dragonfly, and Hummingbird classes will be we will be exploring ABCmouse with both the computers and the iPads. The children will also be reviewing their numbers on the iPads through the Endless Numbers app.

I am very proud of all the children and their developing skills in our Technology class. They are each a blessing and as we continue to learn more about the computers and iPads, I hope the children are sharing with you all they have learned.

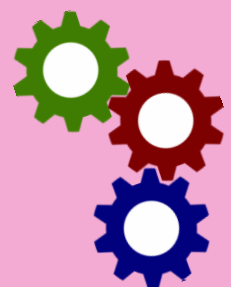

In His Name,

Sarah Benson

**Communication
is key!**

I hope your children
share with you all
they learn at school.
If not, ask them!
