

# April Newsletter

“God loved the world so much that he gave His only Son.” John 3:16

## Hello Parents!

March was another great month for Health and PE class. We spent the first half of the month outside learning kickball and inside learning and practicing 4 volleyball skills: passing, setting, spiking, and serving. In kickball, the students practiced running around the bases; the older children were able to execute a mini game. The younger students rolled the ball to a friend, who would kick it back to them. While in volleyball, the older students focused on working together as a team to get the ball over the net. They were so excited to hit a ball back and forth with friends. We were so proud of the enthusiasm they shared! The younger children loved “spiking” the volleyball (beach ball). It was truly fun to watch them play together using teamwork!

April is going to be another exciting month as we get geared up for Easter! The first few weeks will be spent learning basketball and soccer skills. We will then spend a week doing ‘Spring Celebration’ activities like tossing Easter eggs in a basket and jumping from lily pad to lily pad! It is so fun to watch the children compete and succeed at these activities. They get so excited! After that we will finish our sporting unit with Tee-Ball and begin our playground games unit. This has been such a fun year for the children and us. Thank you for continuing to share your joyous children with us!

**God Bless,**
