

# JULY SUMMER PROGRAM NEWSLETTER

## DEAR PARENTS,

We kicked summer off to a great start in June! We had so much fun learning about camping and space! We had many volunteers come and spend time with the students at Day One.

Your children especially enjoyed our in-school NASA Field Trip where they experienced what space looks like from the International Space Station! The children enjoyed learning what it means to be a loving servant from Pastor Dan and making a splash during water discovery.

In July, the children will get to show off their American Pride during All American Week, and learn how much fun the circus can be with our festive carnival field days. They will become scientists in their classroom and have a special science lesson from Mrs. Money! The children will

also get to explore a new theme about Dinosaurs! The children will go home every day from Day One with something new in their hands, mind, or heart.

## FIELD DAYS AND WATER DISCOVERY!!!!

We will have a fun carnival themed field days the week of July 16-20. There will be lots of fun activities and games planned for your child to enjoy. If you would like to volunteer your time to help with any of the field days, please see Sarah Money in the front office. Please apply sunscreen and bug spray to your child for their field day. A schedule will be posted on the classroom door of your child's field day.

Water Discovery Week is during July 23-27. A schedule will be posted in your child's classroom for their specific days. On their water discovery days, please bring your child dressed to play in the water and get messy. They need an extra pair of clothes and towel. Please make sure all your child's belongings are labeled. Please apply sunscreen and bug spray to your child prior to coming to school.

In His Name,  
The Summer Program Team
