

# Technology

May Newsletter

## Dear Parents,

April has flown by so fast! The children had so much fun working on comprehension skills and practicing their names/letters on the iPads and computers. We continued to build our technology skills and our faith by exploring interactive Bible stories through the Bible App for Kids.

As the school year comes to an end in Technology, the older children will review keyboard skills and typing their name. Younger children will review numbers and shapes. Through these final activities of the school year, all children will be utilizing all the skills they have developed on the computers and iPads

It has been an honor to be your child's Technology teacher this year. They have been enthusiastic learners and developed coordination, comprehension and cognitive skills through technology application. They have learned computer safety, different parts of the computer, touch screen skills and the expansion of technology in our world.

I am proud of all the children and the skills they have acquired in Technology. They are each a blessing to me and as they continue on to Kindergarten or the next level at Day One, I pray they continue to grow in their skills.

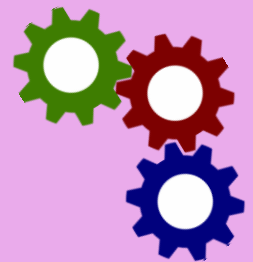

In His Name,

Sarah Money

**Communication is key!**

I hope your children share with you all they learn at school. If not, ask them!

If you ever have any questions, ideas or concerns, please feel free to email me at [smoney@dayonechristianacademy.org](mailto:smoney@dayonechristianacademy.org).
