

# Technology

## October Newsletter

### Dear Parents,

As September ends and we start October, I am so happy how well all your children have been doing in Technology! The Tigers have been doing amazing learning how to use and explore the iPads. The Zebras, Cardinals, Dragonflies, and Hummingbirds began learning about the mouse and how to hold one properly. We practiced coordination with movement of the mouse, clicking, and click and dragging through many different interactive activities. The children enjoyed getting to start their own "Learning Path" on the iPads through the ABCMouse.com app.

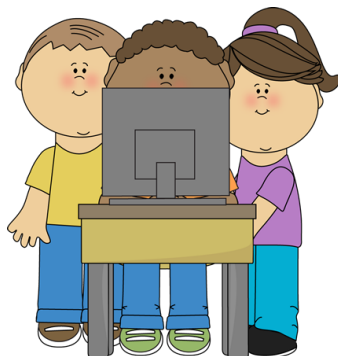

In October, I will start incorporating what the children are learning in the classroom into the Technology Curriculum as often as possible to show the children there are more resources to help them learn at their own pace. The Zebra, Cardinals, Dragonflies and Hummingbirds will be using the letters in their name to begin learning a new part of a computer, the keyboard. The Tigers will explore some of Eric Carle story book apps as they adjust to handling the iPads. As a reminder, all the activities are based on the skills of the individual child.

If you are curious about the activities or apps the children are using in Technology, please feel free to ask or email me any questions.

I am so proud of all the children and their developing skills in our Technology class. As we continue to learn more about iPads and computers and how to use them, I hope the children are sharing with you all they have learned.

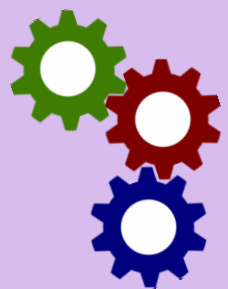

In His Name,

Sarah Benson

**Communication  
is key!**

I hope your children share with you all they learn at school. If not, ask them!

If you ever have any questions, ideas or concerns, please feel free to email me at [sbenson@dayonechristianacademy.org](mailto:sbenson@dayonechristianacademy.org).
